**SUMMARY: FIVE SLOAN WATER CONSERVATION PRODUCTS RECEIVE GREEN RESTAURANT ASSOCIATION ENDORSEMENT**

FRANKLIN PARK, IL — Five products from Sloan Valve Company received endorsement by the Green Restaurant Association for helping the industry become environmentally sustainable.

The products to receive Green Restaurant Association endorsement include:

- 1 Gallon *FLUSHMATE*® IV: saves at least 0.6 gallons with each flush.
- UpperCut™ Dual-Flush Retrofit Handle WES-212: Save up to 0.5+ gallons when flushing liquid waste. Also available as a complete valve.
- Optima Solis™ EAF-275: Due to 0.5 gpm and solar aspect, this product is a demonstrated water and energy savings leader.
- Waterfree Urinal Model WES-1000: Waterless urinals create a potential to save tens of thousands of gallons of water annually.
- Sloan XLERator™: This product can save 80% energy as compared to other dryers.

“Sloan Valve Company is very proud of its innovative, highly efficient, water saving product line,” said Jim Allen, Water Conservation Manager, Sloan Valve Company. “Receiving this prestigious endorsement from the Green Restaurant Association reaffirms Sloan as the leader in Water Conservation Products in our industry. Organizations such as GRA should be commended for their efforts to help protect our resources and raise awareness for a more sustainable future.”

Michael Oshman, Green Restaurant Association, Executive Director, offered praise to Sloan for their water-conserving products. “Congratulations on Sloan Valve Company receiving the Green Restaurant Association endorsement for five cutting-edge products which can have a very positive impact upon our environment and the restaurant industry,” he said.

The Green Restaurant Association, a national non-profit organization, provides services in research, consulting, education, marketing and community organizing. The organization utilizes a collaborative strategy that involves restaurants, manufacturers, vendors, grassroots organizations, government, media, and restaurant customers. The Green Restaurant Association’s model provides a convenient way for all sectors of the restaurant industry, which represents 10% of the U.S. economy, to become more environmentally sustainable.

Sloan Valve Company is a family owned and operated business. Over it's illustrious 100 year history Sloan has been recognized as the world's leading manufacturer of water-conserving plumbing systems. Headquartered in Franklin Park, Illinois, the company manufactures plumbing products and accessories for commercial, industrial, and institutional markets worldwide.
